Community Development Weekly Report

- Please see attachment
Date: 9/01/2021

This summary document is produced on a weekly basis. It is used as an agenda for the City Development Review Board and as a transparency tool to allow the public to be aware of development in Peoria.

1. Summary Information
   - **One Stop Shop** is held every Monday at 1:30 PM in City Hall. This is a free service for anyone who wants to discuss development with staff from various City departments, local utility companies, the Health Department, and CityLink.
   - **Development Center Permits** can typically be issued immediately and/or do not require an extensive review period. These permits include most trade (electrical, plumbing, HVAC, etc.) permits, repair permits, new single-family residential construction, alteration/additions, and demolitions.
   - Each permit application includes a self-reported value of the project. The **Total Value of Development (YTD)** is the sum of these reported values.

   - A **Job** is a development application that requires multiple departments to review for compliance but does not require a public hearing or City Council review.
   - A **Project** is a development application that requires multiple departments to review for compliance and requires a public hearing before a City Commission and in some cases, a final decision by the City Council.
   - The **Staff Assigned** to each Job or Project is the primary contact person for any inquiries.
