Appraisal Revision
The revision of the appraisal for Riverfront Park (conversion parcel) is underway. Neff Valuation Group anticipates completion by the end of March. The revised appraisal will then be sent to the Illinois Department of Natural Resources for review and certification.

Public Comments Posted
At the March 14, 2017 City Council meeting, a member of the public suggested that all of the comments that were submitted regarding the Environmental Assessment be posted for public view. Those have been posted in three separate files on the River Trail section of the City’s website.

Response to Public Comments
City staff is still seeking direction from IDNR and the National Park Service regarding the process and format to use in responding to public comments and finalizing the Environmental Assessment. The City hopes to get that direction early next week.
