Appraisal Revision
The revision of the appraisal for Riverfront Park (conversion parcel) continues. Neff Valuation Group anticipates completion by the end of March. The revised appraisal will then be sent to the Illinois Department of Natural Resources for review and certification.

Final Environmental Assessment
The City has revised the Environmental Assessment into its final form. The revision took into account comments and concerns raised during the public comment period. This included addressing issues brought forth by citizens and the National Park Service. The Final Environmental Assessment has been posted to the City’s website at www.peoriagov.org/riverfrontpark. The document includes a number of appendices (posted separately due to file size). Appendix L is the official response of the City to the substantive comments made by the public.

The Final Environmental Assessment has been submitted to the Illinois Department of Natural Resources and National Park Service. Other than the revision of the Riverfront Park appraisal, submission of this last document is the last known step for the City to take. A final decision from National Park Service will hopefully be delivered soon.

Response to Public Comments
Anyone who submitted a public comment on the Environmental Assessment has been notified of the availability of the final version. Those for whom the City had email addresses were sent an email with a copy of Appendix L (City Response to Public Comments) as well as a link to the final documents. Those for whom the City only had physical mailing addresses were sent a letter with information about how to access these documents.
