NOTICE OF CANCELATION AND RESCHEDULING

NOTICE IS HEREBY GIVEN THAT THE REGULAR MEETING OF THE PEORIA URBAN FORESTRY ADVISORY BOARD SCHEDULED TO BE HELD ON TUESDAY, FEBRUARY 6, 2018, AT 12:00 P.M. HAS BEEN CANCELED AND SAID MEETING HAS BEEN RESCHEDULED FOR TUESDAY, FEBRUARY 13, 2018, AT 12:00 P.M. AT CONFERENCE ROOM 113, 3505 N. DRIES LANE, PEORIA ILLINOIS. A NOTICE AND AGENDA IS ATTACHED HEREWITH.

[Signature]
Sie Maroon
Assistant Public Works Director
Superintendent of Operations

DATE POSTED: February 2, 2018
POST UNTIL: February 14, 2018
SPECIAL BUSINESS MEETING AGENDA
TUESDAY, FEBRUARY 13, 2018
12:00 P.M.

DATES SET:

TUESDAY, March 6, 2018 @ 12:00 p.m.
REGULAR COMMITTEE MEETING – To be held at the Lester D. Bergsten Operations & Maintenance Building, Conference Room #113, 3505 N. Dries Lane, Peoria, Illinois 61604.

TUESDAY, April 3, 2018 @ 12:00 p.m.
REGULAR COMMITTEE MEETING – To be held at the Lester D. Bergsten Operations & Maintenance Building, Conference Room #113, 3505 N. Dries Lane, Peoria, Illinois 61604.

To access electronic Agenda & Minutes (only):
1. www.peoriagov.org
2. Click “Boards/Commissions” tab @ the top
3. Choose Peoria Urban Forestry Advisory Board
4. Scroll to the bottom of the screen. Under “Agenda & Minutes” will be a list of the .pdf postings.
5. Select desired document and double click to open.

*CITIZENS WISHING TO ADDRESS AN ITEM NOT ON THE AGENDA SHOULD CONTACT A COMMITTEE MEMBER PRIOR TO THE MEETING. ALL OTHER PUBLIC INPUT WILL BE HEARD UNDER PUBLIC COMMENT AT THE BEGINNING OF THE COMMITTEE MEETING.

NOTE: THE ORDER IN WHICH AGENDA ITEMS ARE CONSIDERED MAY BE MOVED FORWARD OR DELAYED BY AT LEAST 2/3 VOTE OF THE COMMITTEE MEMBERS PRESENT.

THE PEORIA URBAN FORESTRY ADVISORY BOARD MEETS IN REGULAR BUSINESS SESSIONS THE FIRST TUESDAY OF THE MONTH (JANUARY THROUGH DECEMBER) AT 12:00 P.M. AT LESTER D. BERGSTEN OPERATIONS & MAINTENANCE FACILITY CONFERENCE ROOM, 3505 N. DRIES LANE, PEORIA, ILLINOIS.

*NOTICES OF ANY SPECIAL MEETING ARE POSTED AT LEAST 48 HOURS PRIOR.
ROLL CALL

ANNOUNCEMENTS, ETC.
- April, 2018 - War Memorial Drive at Knoxville Avenue Flower Plantings – Master Gardener Polly Wagner, North Florence Neighborhood Association, PeoriaCorps

MINUTES

CITIZENS' OPPORTUNITY TO ADDRESS THE BOARD

AGENDA ITEMS:

ITEM NO. 1 ELECTION OF OFFICERS.

ITEM NO. 2 DISCUSSION Regarding FORMULATION OF A POLICY FOR ELECTRONIC ATTENDANCE BY BOARD MEMBERS – City Clerk Beth Ball.

ITEM NO. 3 DISCUSSION Regarding RECOMMENDED and NON-RECOMMENDED TREE PLANTING LISTS and REVIEW of the STATE OF ILLINOIS NOXIOUS WEEDS LIST for ADOPTION.

UNFINISHED BUSINESS
1. REPORT BACK Regarding Treasury Funds.

NEW BUSINESS

NEXT MEETING

MARCH 6, 2018

ADJOURNMENT
A Regular Meeting of the City of Peoria’s Urban Forestry Advisory Board convened at 12:00 p.m. on Tuesday, January 9, 2018, at the Lester D. Bergsten Operations & Maintenance Facility located at 3505 N. Dries Lane, Conference Room 113, Peoria, Illinois.

ROLL CALL

Roll Call showed the following Urban Forestry Advisory Board Members in attendance:

Members Present: Chairman Sie Maroon, Board Member Jason Haupt, Board Member Ella Maxwell, Board Member Michael Price, and Board Member Michael Wilkins (arrived 12:07 p.m.) – 5.

Members Absent: Board Member Amy McLaren and Board Member Joseph Keck – 2.

Others in attendance included Matt Freeman of the Peoria Park District, Public Works Program Supervisor Shawn Johnson, PeoriaCorps Crew Supervisor Darren Graves, and Administrative Secretary Ruth Blancaflor.

ANNOUNCEMENTS

- Mr. Maroon announced that Board Member Swigart had resigned from the Commission.
- Board Member Haupt provided one copy of the 2017 Impact Report from the University of Illinois Extension to the Board Secretary. He said more reports would be available tomorrow, at the Extension offices, and he would bring one for each Board Member at the next meeting.
- Mr. Johnson introduced PeoriaCorps Crew Supervisor Darren Graves, and he explained PeoriaCorps was a new program employing youths ages 18-24, who had shown an interest in Green Infrastructure and its maintenance. Every 6 months there is a new group of this staff, who work with area organizations to beautify Peoria.

MINUTES

Board Member Haupt moved to approve the Minutes of a Regular Meeting of the Peoria Urban Forestry Advisory Board on October 3, 2017, as printed; seconded by Board Member Maxwell.

Approved by viva voce vote.

PUBLIC COMMENT

No one came forward to address the Board.

ITEM NO. 1  DISCUSSION and FORMULATION of 2018 ACTION PLAN for the PEORIA URBAN FORESTRY ADVISORY BOARD. [Chapter 29 of the Code of the City of Peoria attached for reference.]
Mr. Maroon stated this item was Food for Thought for the Board to formulate a plan of action items.

There was a discussion regarding the Board’s role and fulfilling the Ordinance that was adopted by the City Council in creating the Board.

Board Member Wilkins expressed concern about the uncertainty of how to anticipate the Council’s needs from the Board.

Board Member Haupt said that the Board Members provided a certain level of expertise to the Council and provided a beneficial service to the city, as a whole, through all of the community bodies with which they interacted. He said they were the city advisors on the subject of Urban Arbo-culture.

Board Member Haupt suggested that the Board undertake the creation of a list of recommended and non-recommended trees for planting in Peoria. He said that step, and coordinating any other proposed issues with the Council and the local horticultural community, were fairly achievable goals.

Board Member Maxwell agreed, and she mentioned other areas where the Board could be of help to the City Council, and the community, such as the stormwater farm and the pursuance of grants.

There was a discussion regarding using the recommended list of trees to supplement the Complete Streets Policy that had been adopted by the City.

The Board concurred that it would be highly beneficial to have the Recommended and Non-Recommended Trees lists and set a goal of sending the document to the City Council for approval by Receive and File at its second meeting in April, 2018. They agreed this would be timely for Arbor Day, which is Friday, April 27th, 2018, and for the startup of infrastructure and development projects. It was noted that announcements and publicity of the lists should be a priority.

In discussion with Board Member Haupt regarding also referencing a prohibited plants and noxious weeds list, Board Member Maxwell stated they could pursue adoption of the list published by the State of Illinois. There were objections.

ITEM NO. 2 DISCUSSION Regarding STRUCTURE OF THE BOARD with ELECTION OF CHAIRMAN.

Mr. Maroon pointed out that the Board should elect a Chairman and Vice Chairman soon. He stated his role was to act as Staff Liaison, only. There were no objections.

There was a discussion regarding a Budget for the Board’s use and the appointment of a Board Treasurer. Board Member Wilkins questioned whether other City Boards had an appointed Treasurer.

Mr. Maroon said he would inquire as to whether or not the Board could have an account and raise funds for its activities.
Board Member Haupt stated they could write a grant application for educational materials and other items, if it was found they could manage a budget account. He said using grant funding simplified the matter greatly, when it wasn’t necessary to try to generate funding.

Board Member Price concurred, and he noted that Ameren had many grant programs, and he had seen many requests come through for tree planting.

**ITEM NO. 3 DISCUSSION and SCHEDULING of FREQUENCY OF MEETINGS of the PEORIA URBAN FORESTRY AND ADVISORY BOARD.** [Chapter 29 of the Code of the City of Peoria attached for reference.]

Mr. Maroon questioned whether the Board would like to continue holding monthly meetings or to go to a bi-monthly schedule.

Board Member Haupt suggested they continue holding the meetings monthly and that board members could attend electronically through a conference line when they couldn’t attend personally. In the alternative, he suggested they could hold face to face meetings quarterly, and for the other 8 months of the year, they could attend electronically by conference line.

Mr. Maroon stated he would ask the City Clerk if that was allowable.

Board Member Haupt moved to keep the schedule of monthly meetings of the Peoria Urban Forestry and Advisory Board and to add the Conference Call option to the monthly meetings; seconded by Board Member Wilkins.

Approved by viva voce vote.

**UNFINISHED BUSINESS**

**Promotional Materials for Public Events**

Board Member Wilkins requested that staff work on locating the Booth and the promotional items that previously had been used by the Peoria Urban Forestry and Advisory Board at local public events. He said the use of those materials provided an important avenue to provide forestry education for the public and contractors, and other community members.

Mr. Maroon stated he would look for those materials and place on the Agenda for discussion the Board’s participation at community events.

**NEW BUSINESS**

None.

**Next Meeting**

The next regularly scheduled Urban Forestry Advisory Board meeting will be held on **Tuesday, February 6, 2018 at noon.**
**Adjournment**

There being no further discussion, the Board meeting adjourned at 12:54 p.m.

Chairman, Sie P. Maroon

/mb
Preferred Trees

1. Swamp White Oak (Quercus bicolor)
2. Red Maple (Acer rubrum)
3. Honey locust [thornless] (Gleditsia triacanthos)
4. Tupelo/Black Gum (Nyssa sylvatica)
5. Sargent Cherry (Prunus sargentii Rehd)
6. Yew (Taxus baccata)
7. River Birch [single stem] (Betula nigra)
8. Osage Orange [Male] ()
9. Ginko [Male] (Ginko bilboa)
10. Black Mulberry [Male] (Morus nigra)

Unwanted Trees

1. Tree of Heaven (Altissima
2. Cottonwood (Populus deltoides)
3. Siberian Elm (Ulmus pamila)
4. Catalpa (Catalpa var.)
5. Hickory (Carya var.)
6. Sycamore (Platanus occidentalis)
7. Buckeye (Aesculus var.)
8. Black Walnut (Juglans nigra)
9. Sweet Gum (Liquidamber straciflura)
10. Ash (Fraxinus genus)
11. Willow (Salix var.)

Preferred Understory Trees

1. Red Bud (}
2. Crab Apple (Malus X)
3. Japanese Maple (Acer japonicum X var)
4. Japanese Maple (Acer palmatum)
5.
6.
7.
8.
9.
10.
6.8 - STREETSCAPE STANDARDS

6.8.1 Intent

The streetscape standards ensure the coherence of the street-space. They also serve to assist building owners and operators with understanding the relationship between the street-space and their own lots. This code requires that sites will be developed with buildings placed at the required building line along the outer edge of the lots they occupy. These standards also establish an environment that encourages and facilitates pedestrian activity. Native trees and plants contribute to privacy, reduction of noise and air pollution, maintenance of the natural habitat, and conservation of water.

6.8.2 General Principles

A. Streetscape

1. Building façades are part of the public realm and therefore are subject to more regulation than the rest of the property.

2. Street trees are part of an overall streetscape plan designed to provide both form (canopy) and comfort (shade) to the street-space. Street trees give special character and coherence to each street-space. The desired aesthetic shall be achieved through the use of native or proven hardy adapted species.

B. Fronts And Rears

1. Building façades are the public "face" of every building. Owners are encouraged to place planters and window boxes with flowering plants and/or climbing vines within 12 inches of the building façade.

2. The private, interior portions of the lots (toward the alley or rear lot line) allow commercial operators to utilize these spaces as efficient working environments unseen by the public and allow residents to have private and semi-private (for apartment and condominium buildings) gardens and courtyards.

6.8.3 Standards

A. General Provisions

1. All plant material (including trees) shall conform to the standards of the American Association of Nurserymen and shall have passed any inspections required under State regulations.

2. Mechanical and electrical equipment including, but not limited to, air compressors, pumps, exterior water heaters, water softeners, private garbage cans (not including public sidewalk waste bins), and storage tanks may not be stored or located within any street-space. (Water pumps not visible are not included in this prohibition.)

3. All streetscape shall be maintained by the adjacent property owner, Property Owners Association, or Business Owners Association. A hose bib shall be required within 50 feet of the fronting street-space.

4. Street lighting and bicycle racks shall be placed along the street tree alignment line.

B. Street Trees

At the time of development, the applicant is responsible for installing/planting the following street trees in the space fronting their property between the required building line and the travel lane:

1. Each street-space shall have street trees planted along the street tree alignment line (generally three feet, six inches from the back of the curb) at an average spacing not greater than 30 feet on center (measured per block face). Required tree planting area
widths are specified in the Street Type Specifications or on the regulating plan. Where necessary, spacing allowances may be made to accommodate curb cuts, fire hydrants and other infrastructure elements, however, at no location shall spacing exceed 45 feet on center.

2. Street tree planter areas (tree pits and tree lawns) shall be located at grade or with their soil surface elevated not more than 12 inches above the adjacent sidewalk or top of curb. The open soil surface area shall be not less than 80 square feet per isolated planting area or 50 square feet per tree for connected soil (tree soil strip) configurations. Any planter area's minimum soil surface dimension shall be not less than six feet. Raised planter boxes shall not be used.

3. At planting, street trees shall be at least two and one-half inches in diameter (measured two feet above grade) and at least six feet in overall height. Species shall be selected from the Form District Street Tree List. Consult the Planning Director for the designated tree species for a particular street-space.

4. Any unpaved ground area shall be planted with groundcover, flowering vegetation, or climbing vines.

5. Street trees shall be "limbed up" as they gain appropriate maturity so as to not interfere with pedestrian or truck travel (minimum seven feet clear over the sidewalk and 14 feet over the travel lanes of the street).

C. **Street Lighting**

1. At the time of development, the applicant is responsible for installing street lighting in the space fronting their property between the required building line and the travel lane, as prescribed in the appropriate street-type specification.

2. A street light luminaire shall be installed on both sides of streets, along the street tree alignment line, unless otherwise designated on the regulating plan, at intervals no greater than 60 feet on Warehouse General and Neighborhood Center sites (and 75 feet on Warehouse and Main Street Local sites), measured parallel to the street, unless otherwise designated on the regulating plan. Street lights shall be between 12 and 16 feet above ground in height. Lighting standards for street-spaces and alleys should be developed to meet the minimum standards of the Illumination Engineering Society (with the design criteria giving equal weight to the lighting of the pedestrian areas and the automobile areas).

D. **Rears**

At least one tree per 600 square feet of the required open (unpaved) area shall be planted in the rear lot area not closer than five feet to any common lot line. Such trees shall be at least two inches in diameter (four feet above grade) and ten feet in overall height at installation. Species shall be selected from the Form District Tree List. Sites that are reusing existing structures on sites that have no ground level open area are exempt from this requirement.

E. **Sidewalks**

1. At the time of development, the developer is required to install sidewalks.

2. Sidewalks not otherwise designated in the regulating plan or street type specifications are a minimum of six feet wide and shall be constructed to meet all City specifications.

3. **Turf and Groundcover (where clearly visible from the street-space and along the alley)**
   a. All turf grass must be solidly sodded at installation—not seeded, sprigged, or plugged.
   b. Vegetative groundcovers may be used in place of turf grass.
   c. In addition to the lot, the owner must maintain the following areas:
   d. The portion of the street-space between their lot line(s) and the back of the curb.
The portion of the alley between the lot line(s) and the edge of pavement.

F. On-Street Parking
   1. The parking space/tree planting pattern may be interrupted by existing or new driveways designated in the regulating plan, streets, alleys, and transit stops/stations.
   2. Parking spaces shall be constructed in a manner that allows proper drainage.

G. Rules for Parking Lot Plantings
   1. Surface parking lots must have at least one canopy shade tree (from the Form District Tree List) for every six spaces planted in an "orchard" configuration.
   2. Subdivide surface parking lots into smaller areas through the use of landscaping and other visual elements. Landscaping shall be hardy and able to withstand soot and gas fumes.
   3. Incorporate convenient bicycle parking. The "U" Rack is recommended as the standard rack. A bicycle rack may be allowed along the street tree alignment line within the street-space with prior approval from the City of Peoria.

H. Civic Greens and Squares
   1. The term square is generally used to describe spaces that have more paved surface area. The term civic green is generally used to describe a formally configured, small public lawn or park that is primarily unpaved.
   2. Civic greens and squares shall be designed, planted and maintained according to the following requirements. Civic greens and squares shall have at least 60% of their perimeter fronting rights-of-way and both spaces should be surrounded by street trees. Their dimensions shall be no narrower than a 1:5 ratio and no square or civic green width or breadth dimension shall be less than 20 feet.
   3. Squares are generally intended to be active pedestrian centers. They should be designed appropriate to their high (pedestrian) traffic level with a higher percentage of paved surface area. Civic greens are spaces intended for less intensive foot traffic. Pervious paving materials (to allow oxygen for tree roots and reduce storm water runoff) are encouraged in both squares and civic greens, and the percentage of impervious paving material is limited. The trees of squares and civic greens provide a landscape and civic architecture that complement the surrounding building architecture. A clear view through the public space (from two to seven feet in height) is required and is important for safety and urban design purposes.
   4. Situated at prominent locations within the Form Districts and often dedicated to important events or citizens, civic greens and squares shall not include active recreation structures such as ball fields and courts.

I. Pedestrian Pathway
   The easement width for these pathways shall not be less than 20 feet with a paved walkway not less than 10 feet wide, except where otherwise specified on the regulating plan, and shall provide an unobstructed view straight through their entire length.

6.8.4 Materials and Configurations
   A. General
      1. Street trees shall be planted along the street tree alignment line at an average spacing not greater than 30 feet on center (per block face). These required trees shall be selected from the Form District Street Tree List.
      2. The ground surface elevation shall be between zero and 18 inches above the top of the adjacent curb.
3. Except for tree trunks, street lights, civic buildings, public art or monuments, there shall be a clear view between two and seven feet above grade. The foliage of newly planted trees may intrude into this area until the tree has sufficient growth to allow such a clear trunk height.

4. Trees within the square or civic green shall be selected from the Form District Tree List.

5. Asphalt is prohibited within the square or civic green, but may be incorporated in the (surrounding) travel lane design.

B. **Squares**

Surface treatment and materials (within the site area back-of-curb to back-of-curb excluding any civic building, public art or monument footprint):

1. Minimum 20% and maximum 30% unpaved pervious surface (turf, groundcover, gravel, soil or mulch).

C. **Civic Greens**

Surface treatment and materials (within the site area back-of-curb to back-of-curb excluding any civic building, public art or monument footprint):

1. Minimum 50% unpaved pervious surface area (turf, groundcover, gravel, soil or mulch).

6.8.5 **Form District Tree Lists**

The following list contains all species approved for use in the Form Districts. It contains native and acceptable adapted species. Other species may be used for planting within a lot. Invasive exotic species shall not be used anywhere on lots or other areas within the Form Districts. The use of alternate species may be permitted, but only if approved by the Development Review Board.

Section 220.60 Noxious Weeds

The following plants within the sovereign territory of the State of Illinois are designated and declared noxious weeds:

a) Marihuana (Cannabis sativa L.);

b) Giant Ragweed (Ambrosia trifida L.) within the corporate limits of cities, villages, and incorporated towns;

c) Common Ragweed (Ambrosia artemisiifolia L.) within the corporate limits of cities, villages, and incorporated towns;

d) Canada Thistle (Cirsium arvense);

e) Perennial Sowthistle (Sonchus arvensis);

f) Musk Thistle (Carduus nutans);

g) Perennial members of the sorghum genus, including johnsongrass (Sorghum halepense), sorghum alnum, and other johnsongrass X sorghum crosses with rhizomes; and

h) Kudzu (Pueraria labata).

(Source: Amended at 26 Ill. Reg. 14644, effective September 23, 2002)
Section 220.210 Noxious Weeds Designated as Capable of Dissemination Through Articles

The following noxious weeds are designated as being capable of dissemination through articles as outlined in Section 220.220.

a) Marihuana (Cannabis sativa L.);
b) Canada Thistle (Cirsium arvense);
c) Perennial Sowthistle (Sonchus arvensis);
d) Musk Thistle (Carduus nutans);
e) Perennial members of the sorghum genus, including johnsongrass (Sorghum halepense), sorghum alnum, and other johnsongrass X sorghum crosses with rhizomes; and
f) Kudzu (Pueraria lobata).

(Source: Amended at 26 Ill. Reg. 14644, effective September 23, 2002)
Section 220.220  Articles Designated as Capable of Disseminating Noxious Weeds

Articles designated as capable of disseminating noxious weeds include, but are not limited to, the following:

a) Machinery or equipment, particularly combines, hay balers, earth-moving machinery and well drilling rigs;

b) Farm truck and common carriers;

c) Grain or seed;

d) Hay, straw, or other material of similar nature;

e) Nursery stock and sod;

f) Seed and screenings sold for livestock feed;

g) Fence posts, fencing or railroad ties;

h) Manure, fertilizers, or material of similar nature; and

i) Soil.
