MEDIA RELEASE

NOTICE OF IMMINENT BRIDGE AND ROADWAYS CLOSURE FOR UPCOMING REPLACEMENT – MACARTHUR HIGHWAY BRIDGE OVER ROMEO B GARRETT DRIVE AND SURROUNDING ROADWAYS

(Peoria, IL) Construction will begin on the MacArthur Highway Bridge beginning early April 2018. Illinois American Water has had the bridge closed since March 12, 2018 to replace a water main in preparation of this Project. Motorists should be aware of the continued roadway closures necessary for the removal of MacArthur Highway Bridge and replacement. These closures will be in effect until the Bridge and roadways are safe for pedestrian, bicycle, and vehicular traffic, anticipated in November 2018.

The following closures will be in effect between April and November 2018:
- MacArthur Highway, from south of Moss Avenue to south of Richard Allen Drive
- Romeo B Garret Drive, from Richard Allen Drive going westerly to just east of Saratoga Street
- Saratoga Street, from MacArthur Highway’s southbound off ramp heading southerly back to MacArthur Highway

Motorists are encouraged to use extreme caution in construction zones and consider using alternate routes, if possible. Detour Routes will be posted.

Please contact City Engineer Bill Lewis at (309) 494-8800 if you have questions regarding this Project.
