

**OFFICE OF THE CITY MANAGER**

**TO:** Honorable Mayor and Members of the City Council  
**FROM:** Patrick Urich, City Manager   
**DATE:** May 2, 2014  
**SUBJECT:** Issues Update

The following are issues related to the City for the weekly Issues Update. If there are additional items you believe should be included, please let me know.

**Peoria Community against Violence Meetings**

Peoria Community against Violence (PCAV) is a newly developed volunteer citizens group organized to reduce violent crime in Peoria. Open house meetings will be held in May and June at different locations throughout the City to provide more information about PCAV. Please see the attached flyer with details about the time and locations of the meeting. Questions about PCAV or the open house meetings should be directed to Krista Coleman at (309) 494-8233 or [kcoleman@peoriagov.org](mailto:kcoleman@peoriagov.org).

**Sinkholes Update**

Due to the unusual weather this past winter, the City of Peoria is now seeing the effects of the deep freeze: sinkholes. Sinkholes are depressions or holes in the ground caused by some form of collapse of the surface layer. They can appear anywhere, vary in size and may be formed gradually or suddenly. Two images are attached which the cause and effect of a sinkhole.

This past winter, the frost penetrated in some places up to four feet down, freezing the ground. When the ground freezes this deep, it can cause the pipe joints to shift, separate and cause the ground to collapse, creating a sinkhole. Due to the number of old storm sewer pipes, the City is now experiencing sink holes throughout the community. It is the same effect as the water main breaks that have occurred throughout Peoria this year.

Sinkholes are not quick to repair. Repairing a sinkhole involves televising the pipes, determining the damage and cause, and then creating a priority list for repairs. This process, inspection and the repair itself can be time consuming depending upon the damage.

If residents find a sinkhole on their property, contact the Public Works Department immediately at (309)494-8800 and an inspector will evaluate the damage.

**2013 HUD Performance Report**

The City, through its Community Development Department, submitted to the Department of Housing and Urban Development (HUD) its 2013 Consolidated Annual Performance and

Issues Update  
May 2, 2014

Evaluation Report (CAPER). The CAPER is an evaluation and performance report required by the Department of Housing and Urban Development (HUD). At the end of each fiscal year, the CAPER details Peoria's accomplishments toward meeting the goals outlined in its Fiscal Year(s) 2009-2013 Consolidated Plan. The CAPER compares the actual performance measures with the performance measures listed in the Action Plan, which is developed before the fiscal year. The CAPER reports on activities funded by the Federal HOME, Community Development Block Grant (CDBG) and Emergency Solutions Grant (ESG) programs.

A copy of the 2013 CAPER can be found on the City's website – Community Development, Neighborhood Development Division under Publications – Plans and Reports or at <http://www.peoriagov.org/community-development/neighborhood-development-division/>.

Questions or requests for additional information should be directed to Nicole Frederick, Senior Grants Coordinator, at (309) 494-8606 or [nfrederick@peoriagov.org](mailto:nfrederick@peoriagov.org).

### **Sheridan Road Improvement Project Public Meeting**

City of Peoria announces a Public Meeting for the Sheridan Road Improvement Project from Richmond Avenue to McClure and the Replacement of Nebraska Avenue Bridge over Dry Run Creek. The purpose of the public meeting is to informally meet with interested individuals, groups and involved agencies in the early stages of project development to present and discuss various alternatives being considered. The Public Meeting for these projects will be held on:

Wednesday, May 14, 2014  
6:00 p.m. to 7:30 p.m.  
Peoria High School Library  
1615 N. North Street

Registration time will begin at 5:30 p.m. in order to promptly start at 6:00 p.m. The meeting will be an "open house" style format with a brief presentation and review of the drawings showing the proposed improvements. Representatives from the City of Peoria and the project team will be on-hand to provide information and answer questions from members of the public.

The proposed improvements consist of reconstruction of Sheridan Road from W. Richmond Avenue to McClure Avenue. The proposed improvement of Nebraska Avenue consists of replacement of the bridge over Dry Run Creek with minimal approach roadway work between Ellis Street and Hampton Court. Pertinent design alternatives will be presented.

Citizens are encouraged to attend the May 14th public meeting, ask questions and provide input. All comments made at the meeting will be given careful consideration by the City of Peoria and the project team. Comment cards are available and may be submitted at the meeting or mailed in. The Peoria High School Library is accessible to disabled individuals. Individuals with special needs should notify Ms. Vikki Hibberd at (309) 494-8800 at least three days in advance of the meeting.

For more information regarding this meeting, or the projects in general, contact City Engineer Scott Reeise, P.E., Peoria Public Works at (309) 494-8800 or Cindy Loos, P.E., Hanson Professional Services Inc., (309) 713-1402.

### **Wisconsin Avenue Business Corridor Neighborhood Design Workshop Update**

On Tuesday, April 29, 2014, Farnsworth Group, Inc. and the City held a Neighborhood Design Workshop at the East Bluff Community Center to obtain public input on the future of the Wisconsin Avenue Business Corridor. Approximately 30 residents and stakeholders attended the event, which kicked off with a walking tour of the Corridor, followed by a 'hands on' brainstorming session.

It was an energized meeting, with participants engaged in sharing ideas to enhance the Corridor, with consensus on what was needed.

Suggestions ranged from wider sidewalks to more street lights, from murals to more restaurants, to creating a 'theme' for the District. Ideas for architectural improvements and redevelopment opportunities were also pointed out by participants during the walking tour.

Information collected from the business interviews and the Design Workshop will be consolidated into a plan for the District. The Plan is proposed to be complete by late summer or early fall.

Highlights of the evening were also captured by the media and can be viewed at:

Issues Update  
May 2, 2014

**City Emergency Repair Program Update**

Effective May 1, 2014, the City will no longer replace or repair inoperable furnaces as part of the Emergency Repair Program. Although furnaces can stop working during the warmer months, the lack of heat during the late spring, summer, and early fall does not create an uninhabitable living environment. Furnace repairs and replacement will be offered again in the fall when temperatures begin to dip below freezing.

**Site Plan Review Board Agenda**

The SPRB agenda from April 28<sup>th</sup> is attached. Any questions related to the listed projects should be directed to the Planner assigned to the case.

**Housing Court Cases**

The list of housing court cases scheduled for May 6<sup>th</sup> is attached.

**Code Violation Cases**

The list of Code violation cases scheduled for May 6<sup>th</sup> is attached.
