

**OFFICE OF THE CITY MANAGER**

**TO: Honorable Mayor and Members of the City Council**

**FROM: Patrick Urich, City Manager** 

**DATE: July 7, 2017**

**SUBJECT: Issues Update**

The following are issues related to the City for the weekly Issues Update. If there are additional items you believe should be included, please let me know.

**Pick Up Peoria—Monday Lunch Time Litter Pick Up**

Have a little extra free time on Mondays? Come on out and help the Mayor's Litter Committee! We provide everything you need from grabbers to buckets but all that is left is you! Meet time is noon, at City Hall every Monday. We have made great progress thus far and would love to have more volunteers help us. If you're interested in helping out and wanting to learn more about the campaign contact Hannah Wilson at [hwilson@peoriagov.org](mailto:hwilson@peoriagov.org).

**Mayor's Youth Program-Philippi-Hagenbuch Tour**

On Thursday, July 6 the Mayor's Youth Program toured two manufacturing companies; Excel Foundry and Philippi-Hagenbuch Inc. The participants didn't get the chance to do any hands on activities since these companies have an abundance of perilous machines, but, instead they learned about the history of the companies, played a trivia game and even received souvenirs to take with them!

Founded in 1969 by LeRoy Hagenbuch and Phil Phillippi, Philippi-Hagenbuch Inc. is one of very few manufacturing companies still owned by the founding family. Philippi-Hagenbuch Inc. has sold over 12,000 components globally. They lead the industry in haulage solutions engineered to improve off-highway haulage operations, increase truck productivity and thereby lower the costs for mining, landfill

and oil refinery. Participants enjoyed seeing the machines and learning about the operations as they explored manufactured products like sundry tailgates, load ejectors, side boards and scrap steel bodies.

President Danette Swank discusses the various products Phillipi-Haggenbuch Inc. carries.

### **Illinois Emergency Management Agency--Officials Urge Caution When Temperatures Rise**

Each year, an average of 37 children die from heatstroke after being left in locked cars. So far in 2017, 14 child fatalities have occurred. With the hottest days of summer just around the corner, the Illinois Emergency Management Agency (IEMA) and county and municipal emergency management agencies are urging parents to take steps to ensure their children aren't locked in a hot car.

Emergency management officials will be offering heat safety tips throughout July as part of Heat Safety Awareness Month in Illinois.

"No one should ever be left in a parked car, even for a short time," said IEMA Director James Joseph. "Temperatures inside a parked vehicle can rapidly rise to dangerous levels even if the windows are open slightly, and can lead to brain damage or death."

Joseph said heat effects can be more severe on children because their bodies warm at a faster rate than adults. He encourages parents to develop habits that will ensure the backseat is always checked before the car is locked, such as putting a purse, cell phone or other needed item in the back seat or making it a routine to open the car's back door every time the car is parked.

## Issues Update

July 7, 2017

“We experience hot and humid conditions several times during the summer in Illinois. The combination of this heat and humidity can reach dangerous levels, particularly for those spending time outdoors in direct sunlight and in buildings without air conditioning,” said Chris Miller, warning coordination meteorologist with the National Weather Service in Lincoln. “Illnesses and fatalities due to heat are preventable. Never leave children or pets unattended in a vehicle; look before you lock your automobile.”

-more-

Other hot weather tips include the following:

- Always lock car doors and trunks, even at home, and keep keys out of children's reach.
- Stay hydrated by drinking at least 1½ to 2 quarts of fluids daily, even if you don't feel thirsty.
- Avoid alcoholic beverages and drinks containing caffeine.
- Avoid overexertion and strenuous outdoor activities if possible.
- Take advantage of cooling centers, public pools and air-conditioned stores and malls during periods of extreme heat. Even a few hours a day in air conditioning can help prevent heat-related illnesses.
- Check on family, friends and neighbors who do not have air conditioning and who spend much of their time alone.
- Don't forget your pets. Offer pets extra water and place the water bowl in a shaded area if outdoors. Make sure pets have a shady refuge where they can escape direct sun exposure.
- If you or someone around you begins experiencing dizziness, nausea, headache, confusion and a rapid pulse, seek medical attention immediate, as these could be the symptoms of heatstroke.

Additional tips on how to protect yourself and others from heat-related illnesses are available on the state's Ready Illinois website ([www.Ready.Illinois.gov](http://www.Ready.Illinois.gov)).
