

**OFFICE OF THE CITY MANAGER**

**TO: Honorable Mayor and Members of the City Council**

**FROM: Patrick Urich, City Manager** *Patrick Urich*

**DATE: February 8, 2018**

**SUBJECT: Issues Update**

The following are issues related to the City for the weekly Issues Update. If there are additional items you believe should be included, please let me know.

**Office of the Mayor and City Council**

On Saturday, February 10 at 9: 15 a.m., there will be a special City Council session to hold a policy session to discuss waste collection services. The meeting will be held in the Auditorium on Lower Level 2 of the Peoria Public Library Main Library, 107 NE Monroe Street. The agenda may be found here

<http://www.peoriagov.org/city-council/meetings/>

**Economic Development-Dream Center Peoria Shuttle Buses to Grocery Stores**

Dream Center Peoria in partnership with the City of Peoria is providing bus shuttle services to residents that live in the South Side and East Bluff neighborhoods. Attached is the bus shuttle schedule. The City is asking everyone to distribute the schedule throughout the community and inform your neighbors that this service is available for those that don't have transportation to grocery stores. The Dream Center is also collecting donations to support the shuttle services. The Dream Center Peoria shuttle schedule, volunteer information, and ways to donate can be found at <https://www.dreamcenterpeoria.org/>. For more information about alternative food strategies and other resources, go to

<http://www.peoriagov.org/economic-development/>

Please see the attachments for schedule information.

**Information Systems—Monthly Newsletter**

In February, the best athletes from around the world will gather in PyeongChang to test their skills against one another at the Winter Olympics. Entire countries will wait with excitement to see the outcomes of individual competitions and count the medals. However, as with any high-profile event, cybercriminals and scammers will also focus on the Games, using your interest in the Olympics to try to trick you into visiting malicious websites, opening malicious spam, downloading malware, and falling for scams. Please see the attached newsletter for more information.

### **Innovation Teams (i-teams) --Help Shape West Main Update**

Around 70 people from the community have attended the Help Shape West Main meetings and offered their thoughts on the future of West Main Street. While many ideas emerged, attendees worked together to narrow the list down to three projects. Groups have formed to take these projects from concept to reality! Renaissance Park Community Association, West Main Merchants Association, and the City of Peoria are spearheading these projects. Interested in helping out? The three projects and contact information to get involved are below!

#### *West Main Fest*

- **What That Is:** Expand use of the Community Garden on West Main Street to bring more free, family-friendly activities to our neighborhood
- **Ultimate Goal:** Build new structures and develop activities/programs at the community garden to debut at the Vintage Market this summer
- **First Steps:** Test our idea by creating a "mock up" picture of what we want to create and getting feedback on it at March First Friday, from area schools (St. Mark's & Franklin), and on social media.
- **Learning Goals:** We will use feedback to shape what we plan for the garden come summer time - will the feedback tell us to screen movies? Feature a mural? Maybe people want a greenhouse, or more seating in the garden? We will find out, and then work to make it happen!

*This project is being led by Renaissance Park Community Association. **This group will meet on Saturday, February 10th at 10am.** If you can lend a hand, email Per Ellingson and Angie Ostraszewski at [peoriarenaissancepark@gmail.com](mailto:peoriarenaissancepark@gmail.com)!*

#### *Tenant-Owner Matchmaking Service*

- **What That Is:** Think of this as a dating service for small business owners and the property owners that have vacant space for business on West Main Street.

Issues Update  
February 8, 2018

- **Ultimate Goal:** Build a process for finding and preparing tenants for spaces that fit their needs on West Main Street.
- **First Steps:** Test how this might work by working with a single property owner and recruiting possible tenants to temporarily use the space.
- **Learning Goals:** We want to learn what property owners are looking for when they search for tenants. We also want to know where potential tenants (small business owners) might be found and what they need to know or do before choosing a space for their business.

*This project is being led by West Main Merchants Association. **The next meeting time will be decided by [this calendar survey on Doodle](#) - please fill it out if you'd like to attend!** If you can lend a hand, e-mail Earl Power Murphy at [epowermurphy@gmail.com](mailto:epowermurphy@gmail.com)!*

#### *A Parklet on West Main*

- **What That Is:** We plan to build two tiny parks called “parklets” where there are currently on-street parking spaces. Projects like this are often called “[tactical urbanism](#).”
- **Ultimate Goal:** Bring awareness to new and current adjacent businesses and introduce the potential and value of added green space along West Main Street.
- **First Steps:** Coordinate with adjacent business to select a date to secure parking spots, explore necessary permits, outline parklet needs, e.g. "floor plan", material needs, material sources and partners, etc.
- **Learning Goals:** How do people react to parklets on West Main Street - do they like them and use them? What are the steps that you need to take to transform a parking spot into a park?

*This project is being led by the City of Peoria. **The next meeting time will be decided by [this calendar survey on Doodle](#) - please fill it out if you'd like to attend!** If you can lend a hand, e-mail Anthony Corso at [acorso@peoriagov.org](mailto:acorso@peoriagov.org)!*

### **PeoriaCorps-PeoriaCorps Member of the Week from Director Wilson**

Dontay Watson, a 2016 graduate of Peoria High School, is one of the young leaders in the inaugural PeoriaCorps program. Dontay consistently demonstrates his skills and talents and has emerged as a leader amongst his peers.

Dontay plans on attending ICC in the fall to major in Automotive and Applied Science. An accomplished artist, he designed the four murals painted on the hallways of Trewyn School for the Dr. Martin Luther King, Jr. Day of Service.

### **Peoria Police Department-Monthly Shooting Report**

Please click [HERE](#) for the January 2018 shooting report, including shot spotter information, from the Peoria Police Department.

### **Peoria Public Schools – Update from Superintendent Dr. Sharon Desmoulin-Kherat**

This week Kellar Primary School hosted its 25<sup>th</sup> Annual Guest Reader Week. 100 local leaders including elected officials, business and non-profit executives, media representatives, educators and artists visited the school to read books to students. Each guest also spends time sharing with the children details of their professional lives. The visits engage students and introduce them to an enormous variety of professional pathways. Guest Reader Week is a program of the Kellar PTO, which purchases the books for the guest readers, which then become part of the Kellar library. Thank you to all of our guest readers for sharing your love of reading to Kellar students.

Bringing speakers into our schools shows students that the Peoria community is invested in their future. Thanks to the sponsorship of Rotary Club of Peoria North, Kellar, Roosevelt Magnet School and Northmoor Primary School students enjoyed the high-energy multi-media presentation by pediatric occupational therapist and author Stacey Glorioso. Glorioso's book *Joshua's Dragon* tells the story of a boy who learns to overcome challenges and obstacles – in other words "conquer his dragons." The

Issues Update  
February 8, 2018

presentation helps children understand and manage their emotions and realistic ways to tame their own dragons.

Friday, February 9, another distinguished speaker will visit Manual Academy for a presentation open to the community. The Manual Academy Robo-Rams welcomes Dr. Luther Beegle, NASA scientist and SHERLOC principal investigator at NASA's Jet Propulsion Laboratory. Dr. Beegle will speak from 7 to 9 p.m. on The Robotic Exploration of Mars. Dr. Beegle worked on the Curiosity Rover which has been exploring Mars since 2012, and is leading a team building SHERLOC, an instrument for the next Mars mission which will search for potential signs of life. The presentation is the opening event for the FIRST Tech Challenge Qualifier on Saturday. The Manual Robo Rams are sponsored by Caterpillar Innovation and Technology Development Division and the Nannie M. Johnson Community Center, and the adult leaders are parent volunteers.

These are all wonderful examples of caring adults coming into our schools to work with our students. As I have written, for PPS students to succeed, we must create a two-way street. In coming weeks, I will be sharing exciting stories about our students going out into the community through internships and service opportunities.

# Spotting and Avoiding Olympic Scams

*City of Peoria Information Systems Department*

## **From the desk of Sam Rivera – Chief Information Officer**

In February, the best athletes from around the world will gather in PyeongChang to test their skills against one another at the Winter Olympics. Entire countries will wait with excitement to see the outcomes of individual competitions and count the medals. However, as with any high-profile event, cybercriminals and scammers will also focus on the Games, using your interest in the Olympics to try to trick you into visiting malicious websites, opening malicious spam, downloading malware, and falling for scams. Below we will explore these tactics and techniques, and provide recommendations on how to spot and avoid them, so you can safely enjoy the Games!

### **Malicious Olympic Websites and Apps**

Cybercriminals commonly create convincing but fraudulent websites as a means to distribute malware or gather information about you. This year there will also likely be many suspicious and, possibly, malicious Olympic-themed mobile apps intended to compromise your smartphones and tablets. Whether you're looking to find out the current medal count, who won the bobsled race, see an amazing figure skating routine, or find out what curling is, these malicious websites and apps will be there for you.

You can start protecting yourself by being careful what websites you visit and emails you open. As with any high-profile event, it's always safest to get your news from websites you already know and trust. When you get that email with the link to the video you just have to see or the fascinating story of the amazing win, remember to *Hover to Discover*. This means to hover your mouse over the link and see where the link is really sending you. If you don't recognize the website, don't click on the link. Instead, go to the official [Olympics website](#) or another online website that you trust and look for the video or news there.

You can also like/friend/follow the official Olympics accounts on your favorite social media platforms ([GooglePlus](#), [YouTube](#), [Twitter](#), and [Facebook](#)) and get the news directly from the source, instead of waiting for potentially suspicious links to appear later. As the Games get closer, many social media apps will also likely roll out news feeds and other special features, related to the Games. Keep an eye out for those so you can safely stay in the know!

Of course, there's also an official Olympic app for your smart device! The Olympics website says the app will contain real-time updates and news, as well as images, videos, and the medal count. The app is available in the Google Play Store and iOS App Store. Since there are a-lot of other Olympic apps, some of which are malicious, make sure you're careful to download the right one! You can check the app against the [app images](#) on the Olympics.org website.

## **Olympic Games Related Scams**

When it comes to high-profile events like the Olympics, cybercriminals always seek to trick you with scams, too. Many of these scams may involve websites that sound and look legitimate. This is because criminals often register these domains with names similar to the event, so that the website name adds credibility to their scams. Two very common Olympic scams are:

### **Trip and Lottery/Sweepstakes Scams**

With this year's Winter Olympics occurring in PyeongChang, South Korea, it is a bit pricey to head over to view the Games in person. Scammers commonly send phishing emails during and leading up to Olympic Games identifying the recipient of the email as the winner of a sweepstakes or lottery for tickets to the Games and travel arrangements. You just have to pay a "fee" or "tax" first and provide a few details... maybe including your Social Security Number or credit card number. Whether they seek your payment information to take your money or your personally identifiable information for identity theft, these notices are always false and should be avoided, as you cannot win a lottery that you have not entered!

### **Olympic Merchandise Offers**

As with lots of other events, there will be Olympic merchandise for sale so you can display your pride and support your favorite athletes. This is great, just be careful where you buy from as you may receive emails or see online advertisements enticing you to purchase fraudulent or counterfeit items from less than reputable vendors. At best, by clicking on these advertisements and offers you will open yourself to the risk of purchasing counterfeit merchandise and at the worst, you open yourself to the risk of having your payment information or identity stolen. Display your team pride by ignoring these suspicious offers and purchasing your merchandise through a known, trusted, and authorized retailer.

It's also a good idea to make all online purchases through an alternative or more secure payment system, such as Visa Checkout, Mastercard Securecode, or PayPal. Otherwise consider using one credit card (not a debit card!) for all online purchases. As always, remember to look for the "HTTPS" in the URL and the little lock icon in the browser bar to ensure your communication with the trusted vendor is safe. If you don't see these, don't submit sensitive information to that website. Lastly, remember to always make your purchases on a trusted, secure network, never through public, unsecured Wi-Fi.

We hope you safely enjoy the 2018 PyeongChang Winter Olympics.

**Go Team USA!**

*The information provided in the MS-ISAC Monthly Security Tips Newsletter is intended to increase the security awareness of an organization's end users and to help them behave in a more secure manner within their work environment. While some of the tips may relate to maintaining a home computer, the increased awareness is intended to help improve the organization's overall cyber security posture. This is especially critical if employees access their work network from their home computer. Organizations have permission and are encouraged to brand and redistribute this newsletter in whole for educational, non-commercial purposes.*
