5. What is a UEI and SAMs Cage Code number, and how do I get one?

7. What happens after I submit my application?

Each application will be screened by City staff for basic information (i.e. funding request amount is within the correct range, active EEO number, financial audit completed). All applications that pass the initial screening will be forwarded to the CDBG Public Services Advisory Commission for their review (see <https://www.peoriagov.org/546/CDBG-Public-Services-Advisory-Commission> for more information on this commission). The commissioners will then complete evaluation forms for each application. Based on their evaluations, they will vote on funding recommendations at their regular commission meeting on Friday, April 15 at 8:30 am. Their recommendations will be sent to City Council for approval at the Tuesday, May 10 council meeting. Organizations will be notified of the council's decision that same week.

8. Are religious organizations eligible to apply?

Organizations may not use direct HUD funds to support inherently religious activities such as worship, religious instruction, or proselytization. There may not be any religious participation requirements (such as prayer, worship or other religious participation) and the organization must serve all eligible beneficiaries without regard to religious.

If there are no religious requirements for specific activities, but there is worship services, religious requirements for other programs, or non-eligible activities at this location then we would need to calculate the total number of hours the building is in use by anyone during a typical week or month, and what percentage of those hours are for CDBG eligible purposes during a typical week or month. From that calculation, CDBG could be used for the percentage of the project that equals the CDBG eligible uses. In addition, you may need to track the participants in programs for a period of time after the roof is completed to demonstrate the clientele that were served at the location.

The type of CDBG eligible activities at the facility must be providing a direct service to low-income individuals within the building.
