### Winter/Early Spring 2024 (January - March)

Project		Project Description	Construction Budget	Type
1	Stone Creek at Wilhelm Bridge Channel Stabilization	This project consist of channel stabilization upstream and downstream of the bridge.	\$1,000,000.00	Drainage
2	Combined Sewer Overflow Reduction Year 3 Project	This project consists of permeable pavement and subsurface infiltration in the right-of-way to manage stormwater and reduce CSO discharges. The project is located between Butler Street, Western Avenue, West Martin Luther King Jr Drive, John Gwynn Avenue, and Webster Street.	\$6,000,000.00	CSO
3	Depot Street From Oak St to Persimmon St and Parking Lot	Construct a road from Oak St to Persimmon and parking lot to provide additional parking in the Warehouse District. Install conduit and fiber for future police cameras. Electric will be converted to underground and a water main will be installed.	\$9,550,000.00	Transportation
4	Donald Street from North Valley Ave to N Machin Ave Drainage Improvements	This project includes new curb & gutter, inlets, driveway pavement and storm sewer.	\$200,000.00	Drainage
5	Drainage Improvements - Ronald & Stafford Storm Sewer	The existing 36" storm sewer outfall to Dry Run Creek does not have sufficient capacity. The project will construct a properly sized pipe and create an overland flow route for large storm events.	\$300,000.00	Drainage
6	Wisconsin Avenue from McClure to Nebraska	This project consists of reconstruction of Wisconsin from McClure to Republic and Kansas to Nebraska. The work includes a new multi use path, sidewalks and storm sewer improvements.	\$5,000,000.00	Transportation
7	Deerbrook Drive Green Street	This project will include porous HMA pavement, porous sidewalks, and storm sewer improvements.	\$7,800,000.00	Drainage/ Transportation
8	MacArthur Hwy from Moss Ave to MLK Drive Reconstruction	Reconstruction Mac Arthur Highway from Moss Ave to MLK Drive including storm sewer improvements, ADA ramps and retaining wall repairs.	\$910,000.00	Transportation
9	Nebraska Ave from I-74 Bridge to Sterling Ave Reconstruction	Reconstruction of Nebraska from I 74 bridge to Sterling Ave including storm sewer improvements, sidewalk and ADA ramps.	\$4,000,000.00	Transportation
10	MacArthur Hwy from Jefferson Street to Bridge Rehabilitation	This project will rehabilitate MacArthur from Jefferson Street to the bridge by moving in the curb to create a three lane section, create a separate multi-use path, and mill and overlay the pavement.	\$4,360,000.00	Transportation
11	Pioneer Parkway and University Intersection (IDOT March Letting)	Reconstruction of the Pioneer Parkway and University Intersection.	\$7,100,000.00	Transportation
12	Sidewalks and ADA Ramps Project 2024	Sidewalk and ADA ramps improvements at various locations.	\$700,000.00	Transportation
13	Street Lighting Upgrade - Prospect Ave	New conduits, foundations, and lighting units on Prospect Ave between London Ave and Forrest Hill Ave.	\$240,000.00	Transportation
14	Street Lighting Upgrade - SW Adams St. Concrete Pole System	Remove and replace concrete light poles in the area around SW Adams St, Garden St, and the Tyng St intersection.	\$520,000.00	Transportation
15	Leroy, El Vista, North Circle, & Wilson Drainage Improvements	The project will include creating roadside ditches and installing pipes, manholes, and inlets.	\$1,500,000.00	Drainage
16	Ridgelawn, Edgewood, Queen Ann, & Greenwood Drainage Improvements	This project will improve the ditches as well as install new driveway culverts, shoulders, and new outlet pipes.	\$1,000,000.00	Drainage
17	Outfall Improvements 2023	Repair drainage outfalls throughout the City.	\$700,000.00	Drainage

**Spring/Summer 2024 (April-July)**

Project		Project Description	Construction Budget	Type
1	Dry Run Creek Tributary C at University Outfall Repair	Repair severe erosion at the outfall. Retaining walls and vegetation may be part of the solution.	\$2,200,000.00	Drainage
2	Springdale Creek at Lake Ave. Outfall Repair	Repair erosion at the outfall with retaining walls and vegetation to stabilize the channel.	\$725,000.00	Drainage
3	Big Hollow Creek at Big Hollow Road Channel Stabilization	Stabilize the channel to control erosion under Big Hollow bridge	\$125,000.00	Drainage
4	Dry Run Creek Tributary A at Gift to MacQueen Culvert Improvements	Improve the culverts carrying Tributary A under the street between Gift and MacQueen.	\$2,400,000.00	Drainage
5	Sidewalks and ADA ramps in 61605	Sidewalk and ADA ramps improvements at various locations in the City within the 61605 Zip Code.	\$1,600,000.00	Transportation
6	Storm Sewer Inspection and Cleaning 2024	Inspect and clean the existing storm sewer system. Goal is to inspect approximately 75,000 feet of storm sewer each year using certified contractors capable of providing industry standard condition scores.	\$700,000.00	Drainage
7	Lamont Ave from Nelson Dr to the dead end Special Service Area (SSA)	The project will include a mill and overlay and new curb and gutter.	\$331,500.00	Transportation
8	Moss Avenue from Western Avenue to Sheridan Road	Project will include curb and gutter, storm sewers, permeable paver parking lane, subsurface storage for infiltration and detention, water main replacement and pavement improvements.	\$8,500,000.00	Drainage/ Transportation
9	Pavement Preservation- Implementation	The focus of this program is to preserve and maintain existing pavement throughout the City. Typical products include slurry seal and sealcoating.	\$900,000.00	Transportation
10	Storm Sewer Lining & Repairs 2024	Line and repair storm sewers in various locations through out the City	\$385,000.00	Drainage
11	Sheridan Rd between Northmoor and Knoxville Drainage Improvements	The existing drainage system for the properties along Sheridan Rd, north of Northmoor, and west of Knoxville is insufficient. New pipes and inlets will be installed to increase the capacity of the system.	\$3,225,000.00	Drainage

**Fall 2024 (August -November)**

Project		Project Description	Construction Budget	Type
1	Outfall Improvements 2024	Repair outfalls throughout the City.	\$700,000.00	Drainage
2	North Street and Stonegate Storm Sewer Drainage Improvements	The existing drainage system does not meet current design standards and pipes are in poor condition. The improvements will start at Glen Avenue opposite of Martha Street. Improvements will extend south parallel and west of North Street to an outfall near the intersection of Wynnwood Drive and North Street. Storm sewer along Stonegate Road also will be replaced.	\$5,500,000.00	Drainage
3	Kinsey St Drainage Improvements	New curb & gutter, inlets, storm sewer pipes, and green infrastructure will be used to manage runoff along the 600 foot length of Kinsey Street.	\$600,000.00	Drainage
4	Storm Sewer Inspection and Cleaning, 2025	Inspection and cleaning the existing storm sewer system. The goal is to inspect approximately 75,000 feet of storm sewer each year using certified contractors capable of providing industry standard condition scores.	\$700,000.00	Drainage
5	Rolling Acres Subdivision Storm Sewer Lining & Repairs	Storm sewer lining and repairs in various locations within the Rolling Acres Subdivision	\$1,000,000.00	Drainage
