Jefferson and Kumpf Signal Work To Occur May 31; Liberty Street To Reopen June 3

Drivers and pedestrians should continue to use caution as OWTW Project work continues

May 29, 2024 (Peoria, IL) Beginning at 7 am on Friday, May 31, the traffic signals at the intersection of SW Jefferson Avenue and N William Kumpf Boulevard will be set to all-flash mode for traffic signal work. The work is scheduled to be completed by mid-morning on Friday.

During this time, drivers should use extra caution when approaching the intersection. Drivers should yield to any vehicles that are already in the intersection, and if multiple vehicles arrive at the intersection at the same time, the vehicle on the right always has the right-of-way.

Liberty Street at SW Adams Street will reopen to through traffic by the end of the day on Monday, June 3. Drivers should continue to access the parking lots along Liberty Street between SW Adams Street and SW Washington Street from SW Washington Street until the street reopens.

Sidewalk Work

Sidewalk work continues at the intersections of Harrison Street, Liberty Street, Fulton Street, Main Street, and Hamilton Boulevard along Adams Street.

Sidewalks near 332, 300, and 124 SW Adams Street, and 100 and 200 NE Adams Streets remain closed. Pedestrians should continue to use caution near these closures and cross the street at the next available intersection.

Lane and parking restrictions remain in effect along SW Adams Street. On-street parking restrictions are marked. Drivers should look for unbagged, available parking meters for on-street parking. **If parking meters are bagged with “No Parking” signs, drivers should not park at those spots.**

Additional parking, lane, and sidewalk restrictions will be forthcoming as the Adams Street and Jefferson Avenue One-Way to Two-Way (OWTW) Conversion Project progresses.
