OWTW Year 1 Work Coming to a Close for 2024

Drivers and pedestrians should continue to use caution as OWTW Project work continues

Dec. 18, 2024 (Peoria, IL) Sidewalk work at the northeast corner of the Harrison Street and SW Adams Street intersection, near 335 SW Adams Street, is nearing completion. Work is expected to be completed in the coming days.

Work at the northwest corner of the Main Street and SW Adams Street intersection, near 100 SW Adams Street, has been completed.

The long-term lane and parking restrictions on SW Adams Street for the Adams Street and Jefferson Avenue OWTW Conversion Project are coming to an end. As weather permits, daytime lane closures for electrical work along SW Adams Street should be expected over the winter months.

The OWTW Conversion Project is a 2 ½ year project. The project's first year focused on upgrading the intersection corners along Adams Street to enhance pedestrian safety. The project's second year will focus on upgrading the intersection corners along Jefferson Avenue to enhance pedestrian safety. The conversion of one-way traffic to two-way traffic will occur in 2026.
