What Are Special Service Areas?

A Special Service Area (SSA) is a contiguous area within a municipality or county in which special governmental services are provided in addition to those services provided generally throughout the municipality or county, the cost of the special services to be paid from revenues collected from taxes levied or imposed upon property within that area.

How Much Does A Special Service Area Cost?

Infrastructure improvements via a Special Service Area are an 80/20 split between the homeowners in the identified Special Service Area and the City of Peoria. Homeowners are responsible for 80% of the infrastructure improvement costs. The 80% homeowner's share is weighted based on property taxes and the number of houses included in the project area.

What Are The Steps To Establish Special Service Areas?

1. Neighborhood petition to request infrastructure improvements to Public Works.
 - a. Total petition signatures should be at least 50% + 1 in the requested infrastructure improvement Special Service Area.
2. The City determines the project and cost of improvements.
3. The City determines the assessed values of each property in the project area.
4. The City determines the participation rate for repayment based on assessed property values.
5. The City applies the participation rate to 80% of the total project cost of improvements.
6. The City establishes the number of taxable years for repayment for property owners.
7. The City notifies property owners of their estimated individual costs.
8. Property owners express written support in favor of the project. Written support is in addition to this petition.
 - a. Support vote must reach 50% + 1.
9. The City schedules a public hearing before the City Council (60-day notice).
 - a. Disapproval vote must reach 50% +1.
10. The City Council votes on the proposed SSA.
11. The project is added to the next available Community Improvement Plan (CIP) budget.
 - a. The next available CIP Budget is based on funding and the timing of when the petition is submitted. Project design will then start.
12. Design and construction of the project.
 - a. After the project is completed, final costs per property will be identified and the costs will be reflected in the next year's property tax bill.
