**Mobile roadway data collection project to begin this week throughout the City**

*Specialized vehicles will be traveling throughout the City to collect roadway data starting this week*

May 30, 2023 (Peoria, IL) Beginning this week, Roadway Asset Services, LLC (RAS) vehicles will be traveling throughout Peoria to inventory the condition of all roads maintained by the City.

To collect all relevant data, the vehicles will be traveling all roads within the City in order to ensure the highest quality of data and imagery. The vehicles will only collect data during daylight hours.

RAS vehicles possess digital cameras that collect imagery on all pavement and above-ground, transportation-related assets located within the right-of-way. This imagery will be used to assess the pavement conditions and update the City's pavement management program.

If residents have any questions or need additional information regarding the vehicles, the project, or the process, they are encouraged to contact the City of Peoria Department of Public Works by [email](#) or at 309-494-8800.
