Sealcoating Road Projects to Begin Thursday, Aug. 29, throughout the City

Road revitalization projects will occur in all five City Council districts

Aug. 27, 2024 (Peoria, IL) The 2024 sealcoating project will begin on Thursday, August 29, on various City streets. Residents directly impacted by the project will be notified with a door hanger 24 hours in advance of the work.

When notified, residents will be asked to remove all vehicles parked on the street. No parking and other traffic signs will be placed on selected streets. No parking areas will remain in effect until the project is completed and the no parking signs have been removed.

Sealcoating is a one-day operation. During the process, roads and driveways may have limited access for 30 to 60 minutes. Emergency vehicles will have access at all times.

Approximately two weeks after the road is completed, street sweeping will occur to remove loose rocks from the roadway.

The sealcoating project is part of the Public Works Department's 2024 Pavement Preservation Program. The City appreciates the public's patience while these roadway treatments are applied to extend the life of the pavement.
